USE YOUR...
Isometric/Matrix Board

You may want to model this activity using 4 cubes such as sugar lumps or dice.

How many ways can your child connect the 4 cubes?

They should draw their solutions on the isometric whiteboard.

You could then challenge them how many ways there are to connect 5 cubes, and then 6 cubes etc.

Can they detect any patterns? Is there a strategy to follow to find out the possible solutions?

CODE: MKB

IMPORTANT: DRYWIPE SURFACE. Use Show-me® Drywipe Pens for best results. Allow ink to dry before wiping. Wipe after each use with a Show-me® Mini Foam Eraser. To keep your Show-me® boards in good condition, periodically clean with Show-me® MAGIX Whiteboard Cleaner/Conditioner & Show-me® Super Absorbent WIZARD Wipes. Manufactured in the UK. Eastpoint, NR32 2EX, UK www.show-meboards.com
