**2+**

SUBJECT  
**SCIENCE**

USE YOUR...  
**Gridded Whiteboard**

Take science outdoors and spy on the bugs that have made their home in your garden.

Mark out an area of ground (50cm<sup>2</sup> works well) and then make a scaled version on your gridded whiteboard. Can your child draw in all the things that they see in this area?

They could record bugs, flowers, weeds and more.

Now try to find another part of the garden that would greatly differ to the first area that was recorded and repeat the activity.

Compare and contrast the 2 areas studied. What was the same and what was different?

Can they predict before they go outside what they might find according to the season, the weather and their location?

CODE:  
908

IMPORTANT: DRYWIPE SURFACE. Use Show-me® Drywipe Pens for best results. Allow ink to dry before wiping. Wipe after each use with a Show-me® Mini Foam Eraser. To keep your Show-me® boards in good condition, periodically clean with Show-me® MAGIX Whiteboard Cleaner/Conditioner & Show-me® Super Absorbent WIZARD Wipes. Manufactured in the UK, Eastpoint, NR32 2EX, UK [www.show-meboards.com](http://www.show-meboards.com)
