**3+**

SUBJECT  
**ENGLISH**

USE YOUR...

Gridded Whiteboard

Players draw a 4x4 or a 6x6 square on their whiteboards.

Players then take it in turns to call out a letter. All other players must then place that letter somewhere on their grid – letters can be called out more than once.

The goal of the game is for players to make as many 4 or 6-letter words vertically or horizontally within their grid using the letters called.
